

Zoho Deluge Certified Developer - Associate

Exam Details

Question Type : Multiple Choice Questions

Duration : 45 minutes

No of Questions : 40

Pass Percentage : 75%

Negative Marking : None

The Associate Developer certification validates comprehensive proficiency in Zoho Deluge's core programming constructs and logical frameworks. This certification is designed for professionals with Deluge foundational programming experience and hands-on development knowledge across Zoho ecosystem.

This is an online test that can be taken from anywhere. The examination link will be shared via email, and the test must be attempted within 30 days of payment.

Each question carries 1 mark, and a score of 30 (75%) guarantees a Pass result.

Upon completion of the assessment, your score will be generated and displayed on the screen.

In case of a **Pass** result, you will hear from us with further instructions.

Syllabus

Syntax, data types, variables, and system variables.

Basic and advance built-in functions, operators, and expressions, complex data types like lists, maps, and collections for dynamic scripting, connections and inbuilt integration tasks across Zoho and third-party services, error handling with try-catch blocks ..
