The issue tracker built to deliver issue-free software!

PRICING PLANS START FROM

3€ /user/month

Free plan available.

Manage your bugs

File and organize issues that crop up during product development, either logging them directly or importing them from a ticketing software.

Track over Kanban

Visualize bugs as cards in a Kanban board, update bug status by dragging and dropping them across the board and track progress efficiently.

Automate your issues

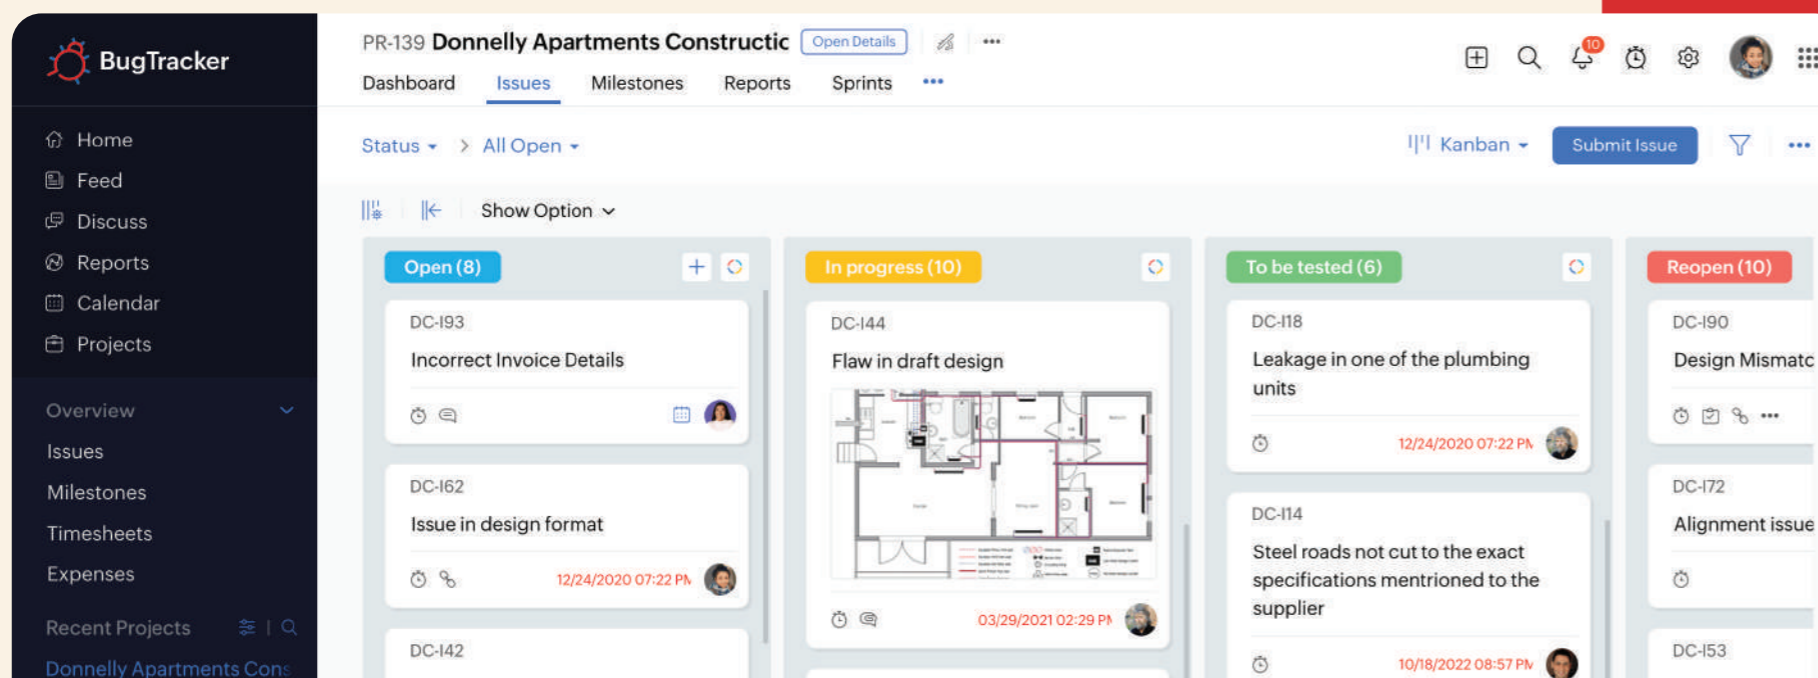

Create workflow rules such that when the set trigger conditions are met, the right people are informed and custom fields are updated automatically.

Work with favorite apps

Connect with Zoho apps like Desk, Analytics or Books, as well as third-party tools like Zendesk, Google apps, Github, Bitbucket etc.

“ We were looking for a simple cloud based bug tracking tool having a short learning curve. Zoho has proved to be the most efficient option for us. ”

– Rajesh Rao, HCL Technologies

HIGHLY RATED BY BOTH CUSTOMERS AND CRITICS
