

AI-powered, automation friendly,

and all things recruitment.

Zoho Recruit is everything you'd want your ATS to be.

Zoho Recruit helps you build a collaborative, data-driven and ROI focused hiring process. With our ATS handling all the heavy lifting, recruiters can finally focus on doing what they do best- building human connections.

15+
years

10K+
business

800K+
recruiters and
hiring managers

Fits right into your tech stack

Plug and play with essential software tools to make the whole hiring process practical and prolific.

BRANDS THAT TRUST US

Features

- ✓ **Generate job descriptions, emails, and more.** Use bots to source, screen, and engage candidates.
- ✓ **Source talent from multiple sources** like free and premium job boards, referrals, vendors, and more.
- ✓ **Setup an SEO-friendly career site** that can easily be customized and localized in 27 languages.
- ✓ **Keep candidates engaged at all times** via multiple channels like WhatsApp, MS Teams and GMeet.
- ✓ **Use our pre-built assessments to screen** and shortlist the best candidates ranked based on performance.
- ✓ **Conduct and review video interviews** and keep your team on the know about candidate ratings.
- ✓ **Create blueprints and custom functions** to automate repetitive tasks with critical human interventions.
- ✓ **Parse resumes perfectly in seconds** and control how lenient you want the parser's filters to be.

Recruit is the bedrock of our organisation. Speed and performance are the key factors why I chose Zoho Recruit.
