

CRM from Foundation to advanced **Zia Intelligence**

Summary

Duration: 4 days | 7-8 hours (Inclusive of breaks)

About the training:

The Zoho CRM for Administrators training program offers an in-depth, virtual classroom experience to help administrators efficiently set up and manage their businesses using Zoho CRM. This training covers the latest features and enhancements of Zoho CRM and includes hands-on sessions with the product.

Who it is for?

This training is open to Zoho customers interested in learning about Zoho CRM. It's especially beneficial for business owners and CRM administrators responsible for setting up, configuring, and maintaining their organization's Zoho CRM software. Discover how Zoho CRM can enhance your business operations and support a successful customer journey.

Training Delivery and Format:

The training sessions will be delivered exclusively in English, using general examples and use cases from industries such as fitness, automotive, and education. These sessions are intended to offer a broad overview with industrial examples—they're not tailored to specific business requirements. Trainers will not be able to assist in customizing your CRM for individual business needs. Each session will run for seven hours daily over four days, with a 30-minute break included (7 hrs | 4 days).
