**Note:**

- If you enable the TFA settings(SMS method) for your Zoho Account, irrespective of the Zoho services that you use, the sub-processor associated with Zoho Account(for sending the SMS) will be utilized. Additionally, general services such as account recovery using SMS, sign up/sign in using SMS, adding a new number to your Zoho Account also uses the sub-processor associated with Zoho Accounts irrespective of the other Zoho applications you may use.
- If you use our suite of applications such as Zoho One, "Plus" suites, then the sub-processor associated with each of the respective products in those bundles would apply as mentioned in the above tabular column.
- If you are the admin of any Zoho service for your organization, you can choose to subscribe for notifications on modifications (addition and change) of sub-processors in this page by clicking [here](#).
